King Mongkut's Institute of Technology Ladkrabang (KMITL)

Cumulative GPA: 3.33

EXPERIENCE

2026 - Present

True Corporation

Data Analyst

True Corporation Public Company Limited (Head Office, True Tower)

Ratchadaphisek Road, Huai Khwang, Bangkok

Mar 2026 – Present

- Built and maintained Power BI dashboards for KPI monitoring and business reporting
- Developed automated data pipelines and web-scraping flows (Power Automate) to streamline data collection
- Wrote SQL queries and designed data models to support analysis and reporting
- Cleaned and transformed raw data into structured datasets; delivered daily and weekly reports

2024 - 2025

Phillip Life Company

Data Analyst (Intern)

Co-operative Education

Phillip Life Assurance Public Company Limited, Bangkok, Thailand

Dec 2024 – Mar 2025 (4 months)

- Cleaned data, updated weekly reports
- Gathered user requirements, designed and developed dashboards

PROJECT

- **Laundromat Revenue Analytics Dashboard (Personal Project):** Designed and deployed a full-stack web dashboard (Python Flask, hosted on Render) that auto-scrapes IoT machine logs every 3 hours via GitHub Actions and analyzes ~45 days of usage across 10 machines to estimate daily revenue, with interactive daily/machine breakdowns and secure login.
- **Web Scraping with Power Automate Desktop:** Extracted data from a web-based database into Excel.
- **Large Data Export:** Exported large datasets beyond Excel's row limit to text files.
- **PDF Extraction with AI Builder:** Built a custom model to extract data from PDFs.
- **Report to Database:** Converted messy reports into a structured database.
- **Get API Data Page by Page:** Extracted data by changing the page number in the URL.
- **Filtering Data by Multiple Columns:** Returns specific results using multiple conditions.
- **Height Ranking and Levels:** Ranks height and classifies it into Low, Medium, and High levels.

TOOLS (SKILLS)

- Excel (Query, Pivot)
- Power Automate Cloud
- DAX Studio (Export Data)
- Power BI Desktop
- Power Automate Desktop (Web Scraping)
- Python (Flask, Spyder)
- Power Apps
- SQL Server Management Studio
- RStudio Desktop
